

THE BRONX GROUP

iBRONX INDUSTRY 4.0

Enhancing Metal with Quality Equipment and Customer- Focussed Solutions

The Bronx Group and Industry 4.0

Celebrating 80 years of providing high quality coil processing solutions, The Bronx Group of companies continues to remain a trusted specialist across the globe. The Bronx Group offers a range of coil coating solutions, from renowned colour coating lines to our embossing line range as well as a host of products which can be placed into an existing line.

The Bronx Group believes that providing access to the best technologies to all its customers, including product upgrades and extras which all work to improve the global standard. We proudly collaborate with our suppliers to ensure faultless operation and a high quality result.

iBronx - Industry 4.0 Ready

As our industry changes, so do our products and capabilities, which is why the Bronx Group developed a software product in accordance with the concepts of industry 4.0.

iBronx provides a host of features, as a predictive maintenance software with live support which provides the user with instant access to all drawings and documents relevant to your equipment.

Our philosophy with iBronx;

- To ensure our customers are ahead of the curve with equipment maintenance software.
- To enable the equipment to self-diagnose and ensure the user is prompted.
- To create a user-friendly, mobile software.
- To optimize efficiency, by ensuring production and maintenance are in sync.

Is your business Industry 4.0 ready?

4.0

Optimise your Production Efficiency

iBronx provides you with a number of opportunities in enhancing your business and its ability to produce at optimal levels year round. Predictive maintenance allows for planned downtime, as well as the ability to track your machine's output and service requirements.

Planned Maintenance

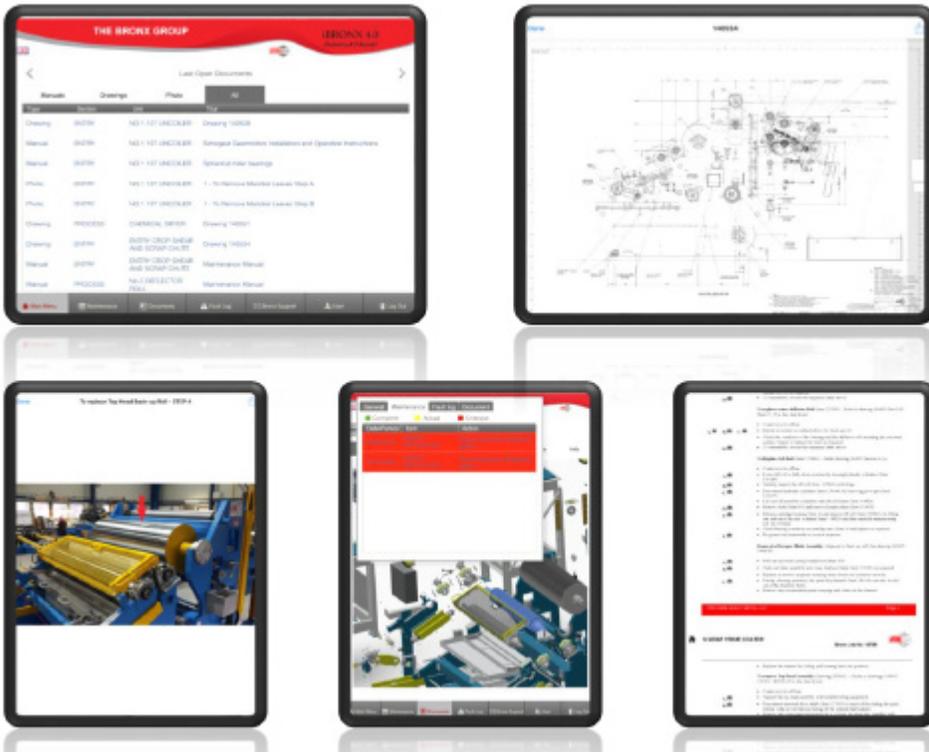

This maintenance is organized into a "Smart Schedule" based on the performance of your equipment. The iBronx system will notify you in advance to ensure you are prepared with the necessary spare parts, tools and materials.

If you require any parts or materials, iBronx enables you to quickly and easily send through a request so Bronx can organise for those to be shipped to you.

Flexibility and Support

iBronx is supported by original manuals, drawings and step-by-step photo directions to ensure each user can swiftly and easily learn the machine's service history and requirements.

The software allows flexibility in providing the ability to manually plan service tasks if necessary. Additionally the line operator can create individual user accounts, so that each engineer, fitter and operator can track and simplify the process further.

Get in touch with us and upgrade your business with industry 4.0 software.

Be prepared with iBronx software
