Why Choose Bronx?

Since 1940, the Bronx Group has endeavoured to provide quality equipment, backed by knowledge and professionalism, and delivered in a supportive manner.

With 32 Colour Coating Lines, 16 Galvanising Lines and 14 Finishing Lines, we have the experience and references which assure our customers, and repeat customers of our dedication to excellence.

We not only design and manufacture our equipment, we also ensure it is delivered with care and attention to detail. Each line is commissioned by our support team and technologists, to ensure efficient operation and safety.

The Bronx Group is immensely proud of its heritage and achievements over the years, and strives to continue to deliver optimal results for all its customers.

What our customers say...

“Bronx..have been a supplier to John Tainton for many years...the machines have been well constructed and have operated without any problems from the day they were first installed...we are delighted with the product quality produced. Bronx...products, design engineering and technical support are always foremost in our considerations when choosing suppliers of strip processing equipment.”

Richard Wandless, Operations Director, John Tainton, England

“Bronx..supplied high quality equipment...also realised coil coating and galvanizing technology transfer. This...ensured our production has operated...at maximum output. (We) are grateful to the Bronx professional team, who provided support through all the stages of the project’s execution. Thanks to Bronx...our company has reached a new technical and technological level.”

Alexander Guk, Technical Director of Metal Profil, Russia

Our aim at the Bronx Group is to deliver tailored business solutions to our customers to ensure business growth and optimal results. We pride ourselves on our engineering excellence and after-sales service.
