SPARES

The Bronx Group

Bronx has been designing and building coil processing lines and finishing lines for over 50 years, with as many references in over 30 countries. Our strength in engineering, commitment to excellence and performance, as well as in delivering solutions tailored to our customer's business have all been key in cementing our global reputation in coil coating, finishing lines and product modernisations.

Additional to our coil processing solutions, Bronx can provide its esteemed clients with a comprehensive spare parts service. From specialist part procurement to line inspection, Bronx's Spare Parts Division offers a range of services in order to keep your business performing at its optimal level.

To maintain output and product quality 'year in year out' on your Bronx, or other equipment, it is necessary to service it on a regular basis. Bronx has the expertise and knowledge to keep your equipment running efficiently. Machine drawings and records of every Bronx machine built are held, so we can manufacture replacement parts to the original specification.

Maintain Your Production Performance Year-Round

Bronx can supply specific parts as well as custom solutions depending on your business needs.

We pride ourselves on our ability to deliver optimal results and to help propel your business forward.

Bronx can provide a full documentation package (material, welding, dimensional certificates measured and evaluated by authorized technicians), and design engineering support (mechanical, electrical).

We also offer the assembly of ordered parts at the customer site, which is performed by our experienced and qualified technicians.

We offer;

- Operator and maintenance training
- Refurbishing and rebuilding of machines
- Machine Inspection
- Scheduled service visits
- Emergency breakdown service

SERVICE

Spare Parts

Through our extensive sub-supplier network, we can provide;

Single manufactured parts

Serial production parts

OEM purchased parts

Sub-assemblies incl. electrical, hydraulic, pneumatic components

We have the know-how and experience to keep your equipment running efficiently.
